

- Only adjust the smart object of the “CHANGE IDENTITY DESIGN HERE” layer to make changes to the Stationery items. By double-clicking the smart object’s thumbnail you’ll be redirected to Illustrator. You can now make changes to all the different stationery items in one Illustrator file. By saving the Illustrator file, all the changes made within the grid of the “Stationery Sizes” layer will appear in Photoshop.
- Change the colours of the shadows on the items within the different groups.
- For creating a JPG, use “Save for web” (File > Export > Save for web) and choose the preset “JPEG High”.
